LETTER OF DEFICIENCY# WSEB 02-173
CERTIFIED MAIL 7099 3400 0003 0691 1598

Alfred Mitchell
A & W Trust
PO Box 625
Belmont, NH 03220

Subject: Belmont - Public Water System: Belmont Business Park (EPA #0206020)

Dear Mr. Mitchell

The records of the Department of Environmental Services (DES) show that the Belmont Business Park water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system serving 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit samples to the State laboratory or a State-certified laboratory for coliform bacteria analysis in compliance with NH Administrative Rule Env-Ws 325.

DES records show that Standard Maximum Contaminant Level (MCL) violations for total coliform bacteria, as defined in NH Admin. Rule Env-Ws 315.01 have occurred and that letters of violation were issued for the following months:

September 2002 and November 2002

DES believes the MCL violations can be corrected and future violations prevented by taking the following actions:

1. **By November 29, 2002**, retain the services of a qualified water system consultant to address the system's water quality problems relative to the recent bacteriological occurrences; and
2. **By December 13, 2002**, submit to DES for review a copy of the consultant's report including recommendations and an implementation schedule to correct the water system deficiencies.

In the event compliance is not achieved within this period, DES may take further enforcement action, including issuing an order requiring the deficiencies be corrected, initiating an administrative fine proceeding and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

Letter of Deficiency #WSEB 02-173
Belmont Business Park
November 15, 2002
